

ATC Service Junctures - July 2013

basic version

ATC Service Flow Explanation for Legal Community - July 2013

Legend:

- △ hospital entrances
- movement of community people
- exit from court

i/c is available to do intake on those clients in court that were screened by crown's office (direct referrals from LPD, OPP, lawyers)

Serviced-based assessment for support - Those who refuse help in ATC, might still be ill and are moved out of ATC need outreach help also

Lawyer may re-apply for consideration after gathering more evidence of illness/challenges - "second screening" can re-trigger another request for client to be diverted.
